#### Scope of this course overview

"This course overview summarizes the most common courses regularly offered by TUM School of Management (minor changes may occur) on our three different campuses. It is not possible to change the campus during the study abroad period.

The links lead to the course descriptions of courses which were offered in previous semesters but it is very likely that they will be offered again in the upcoming semesters. Additional new course offerings are available every semester. Please note that the definite course offer will be uploaded a few weeks prior to the semester start. Exchange students have free access to all courses we offer on B.Sc. and M.Sc. level. However, due to the highly interactive character of the (advanced) topics and (advanced) seminars offered at TUM School of Management only a limited number of participants can be admitted to those courses. The same applies to a few lecture courses. Further information on the application and registration procedure will be given a few weeks prior to the semester start. A full list of courses will be released through TUMonline (<https://campus.tum.de/>) a few weeks prior to the beginning of the lecture period."
